

Students & Alumni now have the ability to send a print job from any Peirce computer they are logged into, to any printer they have access to. The items printed reside in the Peirce “cloud” until the job is released. To release the print job at the printer, all that is needed is to swipe the ID card at the printer.

If ID card is not available, you can download the Peirce APP for Apple & Android to get your ID Number, or @ my.peirce.edu – Biographical Information at the top of the screen.

On the front of the copier, you will see a device that looks like this:
Just slide ID card through the reader as per direction on printer
